

快速入门指南  
Quick Start Guide

Model No: E10K\_TYPE C

### Introduction to controls and ports

# Operation Instructions

## 1 Power on/off

Turn the Power/Volume knob clockwise until a click sound is heard to turn on the device; keep turning clockwise to increase the volume.

Turn anticlockwise to decrease the volume; turn anticlockwise until a click sound is heard to turn off the device.

## 2 Connect it to a computer USB

When first connecting the E10K to a Windows computer, please go to our website to download the USB DAC driver and follow corresponding instructions to install it. (For MAC OS computers: there is no need to install the USB DAC driver, so directly select the E10K as the output device.)

Download link: <https://www.fii.com/supports>

*Notes: it is recommended to set the system output volume on the computer to the max level and then adjust the output volume of the E10K with its volume knob.*

## Notes and Precautions

★In case of a system error, please try to unplug and re-plug the USB cable to resume normal operation.

★Under USB decoding, it is normal if the line-out and PO output signals at the same time.

★Please take off the headphone from your ears before plugging or unplugging the headphone to avoid any possible impulsive sound damaging to your hearing.

★Please keep the device away from water and do not repair or disassemble it on your own.

★Your hearing and environmental awareness may be affected when wearing headphones. For your own safety, please do not wear headphones in dangerous environments.

## List of Items Included *(Notes: check to make sure all items are included in the package.)*

- E10K
- USB data cable
- Isolation feet
- Quick start guide
